“Cardiac MR Evaluation of Myocarditis in Student Athletes After COVID-19 Infection: A Multi-Institution Experience”

Presented by

Jean Jeudy, MD

Professor and Vice Chair of Imaging Informatics
University of Maryland School of Medicine
Cardiothoracic Imaging
Department of Diagnostic Radiology & Nuclear Medicine
University of Maryland Medical Center

This Enrichment seminar will introduce the onset of the COVID pandemic, there was growing concern that competitive athletes may be at risk for sudden cardiac death (SCD) during training and competition after exposure to COVID-19. Members of University of Maryland College Park and the University of Maryland School of Medicine are part of a multi-institution effort to evaluate the prevalence of myocarditis among student athletes and determine the utility of different screening strategies, particularly the use of cardiac MRI.
